Building solutions with the AWS cloud, paired with AWS training, can reduce costs, allow you to innovate faster, and make your business more agile. The experts at AWS understand these benefits and have designed the AWS Skill Builder Team Subscription to enable you to:

- Access **600+ digital training courses**
- Unlock **125+ self-paced, instructor-led labs** at no additional cost
- Scale and assign training across your organization through an administrator dashboard
- Incorporate game-based, experiential learning to keep training engaging and fun
- Create team use case challenges
- Leverage curated learning plans that include self-paced labs
- Prepare your team to get AWS certified

Organizations can use the Skill Builder Team subscription for their training needs or as a supplement to in-person and instructor-led training offered by AWS Training and Certification and AWS Partners. Secure multiple training experiences to ensure your teams can learn in the way that works best for them.

Whether your team is just starting their cloud journey or diving into specialized skills, unlock the value of AWS by setting team goals, learning together, and developing hands-on real-world capabilities. Deepen your team's expertise to improve your total cost of ownership and innovation on the AWS Cloud.
