

Web Publisher («9PWEB»)

In the extra-occupational Web Publisher training course you will deepen your knowledge of screen design and the implementation of websites. We enable you to plan your web presence independently and professionally and to implement it in reality.

Duration: 8.5 days

Price: 4'200.–

Course documents: Digital Digicomp courseware

Content

Here you will get to know the entire process: Starting with the target group-oriented conception, per sitemaps, user flow diagrams and wireframes, over the design for the different end devices, up to the optimal export and the implementation in HTML, CSS, or Wordpress. You will also learn how to create and animate online advertising (banners) and how affiliate marketing via partner networks works. With this knowledge you are ready to enter the field of web publishing. A final presentation of your website completes the web publisher course with Digicomp certification

Additional information

Info about the room equipment

Our courses take place on Windows or Apple devices. On request, we will be happy to provide you with an Apple computer in Zurich, Bern and Basel. Please let us know in advance by sending an e-mail to info@digicomp.ch. You can also bring your own laptop.

For virtual participation, we recommend the use of an additional monitor (not just a laptop) so that you can fully follow and participate in the lesson.

Adobe CC Software

The Adobe Creative Cloud Software will be fully available in the classrooms during the training. However, it is not possible to use the software via Digicomp licenses from home during the training.

Web Publisher brochure

For more information, please download our [brochure](#) on the Web Publisher course in PDF format (in German).
