

Develop Solutions with Azure AI Document Intelligence – Intensive Training («AI3X2»)

Discover how Azure AI Document Intelligence solutions can enable you to capture data from typed or hand-written forms. You will also learn how to build a solution for your custom form types and integrate that solution into an Azure.

Duration: 0.5 days

Price: 450.–

Course documents: Official Microsoft Courseware on Microsoft Learn

Content

1 Plan an Azure AI Document Intelligence solution

Learn how to use Azure AI Document Intelligence to build solutions that analyze forms and output data for storage or further processing

2 Use prebuilt Form Recognizer models

Learn what data you can analyze by choosing prebuilt Forms Analyzer models and how to deploy these models in a Form Analyzer solution.

3 Extract data from forms with Azure Document Intelligence

Azure Document Intelligence uses machine learning technology to identify and extract key-value pairs and table data from form documents with accuracy, at scale. This module teaches you how to use the Azure Document Intelligence Azure AI service.

4 Create a composed Form Recognizer model

Learn how to assemble custom models into composed solutions that can analyze different types of your own documents.

5 Build a Form Recognizer custom skill for Azure Cognitive Search

Learn how to use an Azure Document Intelligence solution as a custom skill to enrich content in an Azure AI Search pipeline.

Key Learnings

- Designing a solution that analyzes your business forms by using Azure AI Document Intelligence
- Creating a solution that analyzes common documents by using Document Intelligence
- Creating a solution that analyses different custom form types by using Document Intelligence
- Including an Azure AI Document Intelligence service as a custom skill in an Azure Cognitive Search pipeline

Target audience

The audience for this course includes AI engineers and data scientists.

Additional information

This workshop is integrated into the course [AI-102: Designing and Implementing a Microsoft Azure AI Solution](#).
