

Microsoft 365 Fundamentals – Intensive Training («MS900»)

This course provides foundational knowledge on the considerations and benefits of adopting cloud services and the Software as a Service (SaaS) cloud model, with a specific focus on Microsoft 365 cloud service offerings.

Duration: 2 days

Price: 1'800.–

Vendor code: MS-900

Content

You will begin by learning about cloud fundamentals, including an overview of cloud computing and specifically Microsoft cloud services. You will be introduced to Microsoft Azure, and you will examine the differences between Microsoft 365 and Office 365. You will then perform an in-depth review of Microsoft 365, including a comparison of Microsoft on-premises services versus Microsoft 365 cloud services, a review of enterprise mobility in Microsoft 365, and an analysis of how Microsoft 365 services provide collaboration. The course then analyzes how security, compliance, privacy, and trust are handled in Microsoft 365, and it concludes with a review of Microsoft 365 subscriptions, licenses, billing, and support.

Course outline

Module 1: Microsoft 365 productivity and teamwork capabilities

Learn about the productivity and teamwork solutions in Microsoft 365 and the capabilities that help people be more productive using Microsoft 365 – The World's Productivity Cloud.

Lessons

- Microsoft 365 productivity and teamwork solutions
- Engage employees with Microsoft Teams, Viva, and Yammer
- Get more done with Office across all devices
- File storage and sharing with OneDrive and SharePoint

Module 2: Microsoft 365 business management capabilities

Learn about the business management solutions in Microsoft 365 and the capabilities that help organizations be more productive using Microsoft 365 – The World's Productivity Cloud.

Lessons

- Manage your business with Microsoft 365
- Simplify device management with Microsoft Endpoint Manager
- Get more done and stay secure with Windows 10
- Harness business intelligence with Microsoft 365 analytics and reporting

Module 3: Microsoft 365 Licensing and support

Learn more about Microsoft 365 licensing, service, and support options.

Lessons

- Identify licensing options available in Microsoft 365
- Describe support offerings in Microsoft 365 services
- Describe the service life cycle in Microsoft 365
- Select a cloud deployment

Module 4: Microsoft 365 security and compliance

Learn about the Microsoft 365 security and compliance solutions areas and the capabilities available to help enterprises secure their enterprise and meet regulatory requirements.

Lessons

- Describe Microsoft security and compliance principles
- Describe identity and access management capabilities of Microsoft 365
- Describe threat protection
- Describe cloud security
- Describe information protection and governance
- Describe compliance management
- Manage risk, discovery, and audit

Key Learnings

- Differentiating between the various cloud service models
- Identifying the key differences between Microsoft 365 and Office 365
- Planning for migration to Microsoft 365 services
- Identifying key differences between Microsoft on-premises services and Microsoft 365 cloud services
- Identifying how Microsoft 365 services support teamwork
- Describing identities, including cloud, on-premises, and hybrid identity
- Describing cloud device management and protection, including the use of Intune
- Describing data protection, including the use of Azure Information Protection
- Describing compliance in general and the compliance features in Microsoft 365
- Describing Microsoft 365 subscriptions, licenses, billing, and support

Target audience

This course is designed for Business Decision Makers and IT Professionals who aspire to deploy cloud services in their organization, or who are simply looking to acquire foundational knowledge on cloud fundamentals. This includes the considerations and benefits of adopting cloud services in general and the Software as a Service (SaaS) cloud model specifically, with a general focus on Microsoft 365 cloud service offerings.

Certification

This training prepares you for:

- **Exam:** «[MS-900: Microsoft 365 Fundamentals](#)» for the
- **Certification:** «[Microsoft 365 Certified: Fundamentals](#)»
