Methodology & didactics

This course consists of impulse lectures and exercises in alternation.

Target audience

This course is aimed at employees of agile teams or employees from organizations that are implementing agile practices.

Certification

The exam is not part of the course. Please register individually for the exam via an authorized test center. Please note that, based on experience, a few more weeks of self-study should be scheduled between the course and the exam.

The certification exam consists of 120 multiple-choice questions, for which you will have three hours.

Please note that the exam is not available in German.
