

Introduction to Java Servlet API («JEE02»)

This course provides an introduction to the practical use of Java Servlets in web applications.

Duration: 2 days

Price: 1'400.–

Content

1. Basics

- Servlet Life Cycle
- Interface javax.servlet.Servlet
- Interface javax.servlet.ServletException
- Interface javax.servlet.ServletResponse
- Class javax.servlet.GenericServlet
- Class javax.servlet.http.HttpServlet
- Interface javax.servlet.http.HttpServletRequest
- Interface javax.servlet.http.HttpServletResponse

2. Web applications

- texture
- Deployment Descriptor
- annotation
- Web Archive (WAR)

3. Web container

- context
- Interface javax.servlet.ServletContext
- Interface java.util.EventListener
- Interface javax.servlet.ServletContextListener
- Interface javax.servlet.ServletContextAttributeListener

4. Configurations

- parameter
- header
- Interface javax.servlet.ServletConfig

5. Requests

- Interface javax.servlet.ServletRequestWrapper
- Interface javax.servlet.http.HttpServletRequestWrapper
- Interface javax.servlet.ServletRequestListener
- Interface javax.servlet.ServletRequestAttributeListener

6. Replies

- Interface javax.servlet.ServletResponseWrapper
- Interface javax.servlet.http.HttpServletResponseWrapper
- Class javax.servlet.ServletOutputStream
- Class javax.servlet.ServletInputStream

7. Dispatching

- Forwarding versus Inclusion
- Interface javax.servlet.RequestDispatcher

8. Filters

- Filter Life Cycle
- Interface javax.servlet.Filter
- Interface javax.servlet.FilterChain
- Interface javax.servlet.FilterConfig

9. Sessions

- Session Life Cycle

- Interface javax.servlet.http.HttpSession
 - Interface javax.servlet.http.HttpSessionListener
 - Interface javax.servlet.http.HttpSessionIdListener
 - Interface javax.servlet.http.HttpSessionActivationListener
 - Interface javax.servlet.http.HttpSessionAttributeListener
 - Interface javax.servlet.http.HttpSessionBindingListener
 - Class javax.servlet.http.Cookie
10. Asynchronous
- asynchronous life cycle
 - Interface javax.servlet.AsyncContext
 - Interface javax.servlet.AsyncListener
11. Modula
- Multipart Form
 - Web Fragment

Key Learnings

- Introduction to the Java Servlet API specification
- Practical use of Java Servlets

Target audience

This course is aimed at application developers who want to use Java Servlets in web applications.

Requirements

Several months of practical experience in application development with Java or at least completion of the previous course:

- [Introduction to application development with Jakarta EE \(«JEE01»\)](#)

Further courses

- [Introduction to the JavaServer Pages API \(«JEE03»\)](#)
