

## Leading SAFe 6.0 («LDSAFE»)

Agile already? SAFe helps you scale. More transparency, optimized collaboration, shorter product development cycles. In this course you will learn the underlying principles of the SAFe framework & experience the impact on your business.

**Duration:** 2 days

**Price:** 2'000.–

**Course documents:** Original courseware (English, digital)

### Content

- Introducing SAFe: Introducing the Scaled Agile Framework™
- Lean Thinking: An Overview of Lean Software Development and Product Development Flow
- Agile Development: Implementation and Benefits of Agile Development in Enterprise Environments
- SAFe Principles – The basic values of SAFe
- Agile Release Train: Identification, implementation and execution of Agile Release Trains. These are long-term processes in which «Teams of Agile Teams» optimize the quality and delivery speed of the company's essential value streams / products
- Agile Portfolio Management: Agile Transformation Patterns for Strategy and Investment Planning, Portfolio & Program Management and Governance
- Agile Architecture: Principles of agile architecture, roles of system and enterprise architects, and architecture development concepts that balance business and architecture
- Agile Leadership: Scaling lean-agile principles into business management

### Key Learnings

- Interpret the basic constructs of SAFe and the steps of the Implementation Roadmap
- Apply the values and principles of a Lean-Agile Mindset
- Apply SAFe's Lean and Agile principles to the roles and practices of SAFe
- Create high-performing teams by establishing mission and purpose
- Use transformational leadership to drive change, develop people, and encourage innovation
- Support PI Planning and the events associated with successful Program execution
- Drive continuous value delivery through the Continuous Delivery Pipeline
- Establish alignment and execution with Strategic Themes and Lean Portfolio Management
- Coordinate multiple Agile Release Trains and suppliers with a Solution Train

### Methodology & didactics

Training thrives on interaction. Numerous flip charts, etc. are created during the training. Group exercises will challenge you to react quickly and understand what needs to be done when you return to your workplace.

In the seminar you will receive Scaled Agile's digital course materials in English.

### Target audience

The Leading SAFe course is a compact and clear presentation of how multiple agile teams interact and manage their content across all organizational levels. It is particularly useful for managers, coaches, business representatives, stakeholders, and organizational change agents throughout the system.

## Certification

After attending the Leading SAFe course, you will have access to the SAFe Agilist exam. The registration is valid for 30 days. Upon passing the exam, the participant will receive the «Certified SAFe® Agilist» certificate from the Scaled Agile Academy.

**Exam format:** Multiple Choice, web-based, no aids, questions: 45, pass rate: 34 out of 45 (76%), duration: 90 minutes, language: English

## Additional information

Trainings in German and English are conducted by our training partner *AgileMinds*.

Trainings in French are conducted by our partner *Ahead Technology*.

## Further courses

- SAFe® 6.0 Product Owner/Product Manager with POPM certification («POPM»)
- SAFe 6.0 Lean Portfolio Management («LPM»)
- SAFe 6.0 Scrum Master («SMSAFE»)
