

Red Hat JBoss Fuse Rapid Track («JB439»)

Take the rapid track to managing JBoss Fuse, JBoss AM-Q, and Apache Camel

Duration: 5 days

Price: 4'600.–

Vendor code: JB439

Content

This 5-day course that gives Java™ developers, architects, and Red Hat JBoss Fuse administrators an understanding of [Red Hat JBoss Fuse](#), [Red Hat JBoss A-MQ](#) (Java Messaging Service broker), and Apache Camel.

Learn the skills you need to develop and implement enterprise integration patterns (EIP) using Camel, and see how to deploy EIPs in [Red Hat JBoss Fuse](#) – an enterprise service bus (ESB) built on Apache ServiceMix. In addition, learn how to use [Red Hat JBoss A-MQ](#) – a messaging platform based on Apache Camel.

- **Introduction**
 - JBoss Fuse product family
- **Red Hat JBoss Fuse**
 - Introduction
 - Install and customize
 - Management
 - Implement of OSGi in production
- **Red Hat JBoss A-MQ**
 - Install and configure
 - Customize and integrate of network of brokers
 - Increase availability and reliability
 - Increase performance
 - Connect using Java Message Services (JMS)
- **Camel**
 - Introduction
 - Develop integration solutions
 - Perform basic data transformations
 - Perform advanced data transformations
 - Perform basic components
 - Perform network-based components
 - Test applications
 - Manage error handling
 - Threading and transactions
 - Integrate Camel and Fabric

- Core concepts of OSGi-based deployment and design
- How to rapidly implement, test, and debug EIPs
- Overview of advanced EIPs
- Fundamentals of message-oriented middleware (MOM), JMS concepts, and enhancements to JMS by Red Hat JBoss A-MQ
- Numerous broker topologies
- Performance-tuning techniques
- Configuration management using Fabric

Target audience

- Java developers and architects who need to learn how to implement EIPs using Camel, as well as how to use the messaging capabilities of Red Hat JBoss A-MQ (ActiveMQ).
- Integration system managers who need to configure and maintain networks of brokers and enterprise service bus (ESB) instances using features of Fuse Fabric.
