Microsoft Power BI for Advanced Users («MPBI02»)

The learning curve in Power BI is steep – you can quickly create your own reports.

Duration: 1 day
Price: 900.–
Course documents: Digicomp workshop documentation

Content

This course goes beyond the basic functions of Power BI and offers you versatile tips on various areas for your Power BI evaluation. Based on our practical experience, we show you solutions for common challenges and introduce you to the latest functionalities of Power BI.

- Report Server
- Power query
- DAX
- Integrating Power BI with Power Apps
- AI and Power BI
- Premium Features
- Q&A

Key Learnings

- Knowledge of the advanced capabilities of Power BI compared to traditional Microsoft BI solutions
- Assessment of the deepened application possibilities for your company
- Connecting external data, operating mobile devices and publishing live data

Methodology & didactics

Concepts are presented on slides and with demos. The participants then apply the topics in exercises.

Target audience

This workshop is aimed at Power Users and Report Designers who want to expand their know-how about Power BI.

Requirements

Knowledge of the basic functions of Power BI and experience in creating your own reports.

- Microsoft Power BI – Fundamentals («MPBI01»)

Additional information

This workshop refers to Power BI Service (Cloud-based).
