Certified Information Systems Security Professional (CISSP) («SSP»)

The aim of this course is to take the CISSP exam. With this certificate, you increase your attractiveness for employers enormously. You will also help to guarantee and maintain a high standard of safety.

Duration: 5 days
Price: 5'190.–
Course documents: Digicomp course documentation in English and accompanying book «CISSP Certified Information Systems Security Professional Study Guide».

Content

The personal competence of each individual employee is important for the protection of the company. Ethical principles and generally applicable standards are necessary in order to achieve and maintain a high standard of safety. $(ISC)^2$ has made it its task as a non-profit institution to maintain a common body and to certify IT specialists.

- Access Control and Methodology
- Telecommunications and network security
- Practice of safety management
- Application and system development
- Cryptography
- Security Architecture and Models
- Operational safety and security
- Operational continuity management and contingency planning
- Laws, investigations, and ethics
- Physical Security

Key Learnings

- Increasing your attractiveness for employers through certified knowledge at the level of an international industry standard
- Helping to guarantee and maintain a high standard of safety
- With additional preparation, you are well prepared for the examination for the international «CISSP» certificate (250 multiple-choice questions)

Target audience

This course is aimed at individuals who wish to prepare for CISSP certification and is ideal for security consultants, analysts, security managers and auditors. In addition, the certification is useful for ambitious professionals who aspire to the role of Chief Information Security Officer (CISO).

Certification

Not included in the price are the PearsonVUE exam fees of approx. EUR 650.00. We recommend an additional preparation time after the course in order to prepare optimally for the exam. The exam is available in the following languages: English, German, Spanish, Chinese, Japanese and Korean.

You can register online for the CISSP exam at $(ISC)^2$ and take the exam in a Pearson VUE testcenter in Lausanne or Zurich.

Further courses

- Certified Cloud Security Professional (CCSP) («CCSP3»)
