IREB® Certified Professional for Requirements Engineering – Foundation Level («QM2»)

In this seminar you get to know the basics of Requirements Engineering (RE). You will be optimally prepared for the CPRE® Certification and also receive numerous valuable practical tips.

Duration: 3 days
Price: 2'790.–
Course documents: Digicomp courseware

Content

- Introduction, Overview
- Principles
- Work products and documentation practices
- Practices for the development and coordination of requirements
- Process and work structure
- Practices for requirements management
- Tool support
- Exam preparation

This course is based on the syllabus of the certificate «IREB Certified Professional for Requirements Engineering (Foundation Level)» (Version 3.1.0).

Key Learnings

- Understanding the theoretical fundamentals (methods and processes) of Requirements Engineering
- Preparing for the IREB® certification exam «CPRE® Foundation Level»
- Working on practical examples, discussion and exchange of experiences
- Developing the ability to elicit, document, review and manage requirements in agile and linear settings

Methodology & didactics

This Requirements Engineering course is conducted predominantly interactively. Building on short impulse phases, numerous exercises are carried out and discussed together.

Target audience

This course is designed for requirements engineers, business analysts, business engineers, product engineers, and project team members who need to specify or interpret requirements for IT systems.

Certification

Participants of this course have the opportunity to document their knowledge with the international CPRE® certificate. Another plus for your CV.

Before the start of the training, you will receive a voucher and the link to register for the exam from Certible. The voucher code is to be redeemed at registration, where you can also select your preferred exam date.

After registration you will receive access data to Certible's self-service portal, where you can flexibly reschedule your booked date - there are no deadlines and no additional costs.

Technical requirements
For online exams with Certible candidates need a computer with a stable internet connection, a webcam and microphone and one of the supported browsers (e.g. Chrome, Firefox). No installation is required. You can find further information on remote exams with Certible at https://www.certible.com/remote-exams/

We recommend using a private device and private network for the exam if possible, especially if your company computer or network is subject to restrictions.

Using the self-service portal you can also check your system's compatibility with the remote exam in advance of your appointment.

Exam format
The exam lasts 75 minutes. Upon request, for example if your native language is not the language of the exam, the duration of the exam can be extended to 90 minutes.
During this time, approx. 45 multiple choice questions must be answered. The questions vary in difficulty and are awarded different numbers of points accordingly. No aids are permitted during the exam. You have passed the exam if you have achieved 70% of the points or more.

Further courses

- IREB CPRE | Advanced Level – RE@Agile («IRREAG»)
- IREB CPRE | Advanced Level – Elicitation («IRELIC»)
- ISTQB® Certified Tester Foundation Level 4.0 («QM3»)
- IREB® Certified Professional for Requirements Engineering – Agile Primer («IAP»)
