- Lean Agile mindsets in connection with the role of Product Owner and Product Manager
- Collaboration with Lean Portfolio Management
- Continuous exploration of customer needs
- Execution of the PI
- Role and responsibilities of the Product Owner / Product Manager
- Product Owner / Product Manager action plan

Key Learnings

- Applying SAFe in the Lean organization
- Connecting the SAFe Lean Agile principles and values with the PO / PM roles
- Collaborating with Lean Portfolio Management
- Exploring continuous value with PI Planning and PIs
- Executing Planning Intervals (PIs) and specifying continuous value
- Understanding the Product Owner and Product Manager roles
- Creating a role action plan
- Developing epics, capabilities, features and user stories in the context of SAFe
- Managing backlogs and initiatives in a Lean-Agile organization

Methodology & didactics

The training thrives on interaction. Numerous flipcharts etc. are created during the training. In group exercises, you are challenged to react quickly and understand what needs to be done when you return to your workplace.

Target audience

This course is aimed at product managers, product line managers, product owners, business owners, business analysts, solution managers, portfolio managers, program managers, PMO staff, process managers, enterprise architects, solution and system architects.

Requirements

There are no formal requirements for participation in the course.

Experience in working with Agile teams as a Product Owner or Scrum Master is an advantage

For those who wish to take the «Certified SAFe® Product Owner / Product Manager (POPM)» certification exam, we recommend experience in a SAFe environment and the Lean or Agile certifications as well as prior attendance of the following course:

- [Leading SAFe 6.0 \(SA\) \(«LDSAFE»\)](#)

Certification

After participating in the training, you will receive access to the SAFe® Product Owner/Product Manager exam. The login is valid for 30 days.

After passing the exam, participants receive the «**Certified SAFe® Product Owner/Product Manager**» certification from the Scaled Agile Academy.

Exam format: multiple choice, web-based, no aids.
The exam is held in English.

Experience has shown that seven to ten hours of independent study are required to successfully pass the exam. Our trainers will prepare you optimally for the course and will also be on hand to answer your questions afterwards.

Additional information

This training is conducted in English and German by our training partner AgileMinds and in French by Ahead Technology.
